ABOUT THE PROGRAMMES

Through these programmes, the NOUN Business School (NBS) will be fulfilling its mandate of providing:

- World-class business management education and research at the various study centres of the University across the six geopolitical zones of the country, and
- Innovations in themes, programs and delivery methods to serve the evolving needs of students, industry, and the nation at large in the coming decades.

The NBS will serve as a hub for local and global talents, cross-disciplinary research, business-university partnerships, global leaderships and local entrepreneurship and innovation. The need to have enough local talent to allow organizations maintain competitiveness, and support the creation of more avenues for local upgrading of high-end skills cannot be overemphasised. The NBS will help to serve highly-qualified students who are not being accommodated by current business and management programs in other institutions in the country.

Whether your ambition is to lead in international organisations or start something closer at home, the course will hone your strategic thinking and capabilities, preparing you for a career at the forefront of business. The NOUN Executive Master's programmes offer the flexibility to learn over a longer period of time and are specifically designed for people who want to combine a full-time career with study. This provides the opportunity to enrich learning through discussion of current business issues and apply your skills and knowledge straight away in your professional practice.
